Original estimate:	Not Specified		

Rank:	0 i007bj:
-------	-----------

Description

Summary:

1. When filling "Your table number" field, there is no restriction or error message to affirm that there can be entered only numbers.

2. Error message when nothing is present does not correspond to the actual error.

Version: 0.0.3

Browser version: Microsoft Edge - Version 105.0.1343.50 (Official build)

User: No authentication is needed

Steps:

1. Open system - menu page

2. Add item to order

3. Press "View my order" button

4. Fill information necessary in fields

5. Press "Submit" Button

6. Error message appears or Order is submitted

Expected result:

1. Step 4: Filling "Your table number" field with anything but numbers.

1. Step 6: Error message should appear: *Table number entered incorrectly (enter numbers only)*

2. Step 4: Leaving "Your table number" field blank

1. Step 6: Error message should appear: *Please type your table number (enter numbers only)*

Actual result:

1. Step 4: Filling "Your table number" with at least one character

1. Step 6: Order is submitted

2. Step 4: Leaving "Your table number" field blank

1. Step 6: Error message appears: *Missing required header 'To'.*

You have really nice structure and clean description, but numbered points work better in bugs, as you can refer to step number in case you are describing complex case.

Steps:

1. Do step a

2. Do step b

3. Do step c

4. Press button d

5. Open screen e

6. Observe field value f.

Expected:

<div><div><div>Step 4:</div><div>no errors displayed</div></div><div><div>Step 6:</div><div>field value is 'value'.</div></div></div> <div><div>Actual:</div><div><div>Step 4:</div><div>error displayed</div></div><div><div>Step 6:</div><div>field value is 'incorrect value'.</div></div></div> <div>I hope my example explained my idea (:</div>
